

Educational Environment Survey

The survey was conducted in autumn 2016 and the result has been presented to the school staff members.

The students answered questionnaires where they could give their opinions. The way they do this is to strongly agree, agree, disagree and strongly disagree to certain positive statements. All the answers have been into three main categories and evaluated into graphic statements.

Three Areas

- **Safety and Respect**

This area is the general impression of respect amongst students to students and students to staff. It also the safety feeling at the school

- **Decision and Listening**

This is about the students being heard in decision-making and listened to in a general sense

- **Teaching and Learning**

This the students' impression of their teachers and their own learning

The Color-coding of the Graphic Statements

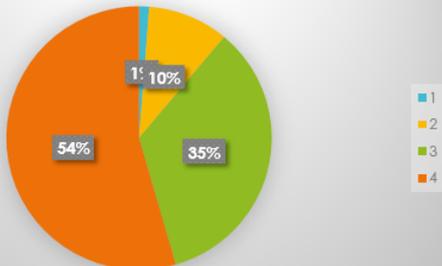

- | | |
|----------|-------------------|
| ➤ Orange | Strongly agree |
| ➤ Green | Somewhat agree |
| ➤ Yellow | Somewhat disagree |
| ➤ Blue | Strongly disagree |

The schematics are followed by the students own suggestions to the good teacher and which issues need to be addressed.

MORE SURVEY 😊

Teaching and learning

The good teacher/grown up:

- Nice, Funny, Not yelling, Listens, helps, Knows when to shout and not to.
- Makes learning interesting.
- Respect students problems.
- Caring
- Respectful
- Understanding

Issues:

- Kanteen food
- Not enough space
- Lesser Homework
- New computer
- Some teachers should pay more attention
- The 10 graders
- Student interaction

It is the aim of the school that, in regards to the good teacher/grown up (adult), the teachers will use this knowledge to be aware of and create a better environment for students and themselves.

The school sees it as very important that we create a caring, respectful and demanding frame for learning.

Issues Solutions

- We cannot change the canteen food
- We are working on new and bigger facilities
- We are working on a homework policy to minimize homework peaks. But not the amount
- We will see if we can get more laptops
- We are working on interaction policies for students and teacher to improve the already good atmosphere with cooperation and dialogue

Conclusion of the Survey

We have some areas where we have become aware of the importance of the good teacher and the qualities students think are important.

The perceived issues are not new to the school and the school is continuously working on improvement, most important now is space.
